### Description

LAND ROVER's global success really began with the Series 2a. From the 1960s onwards he has seen and conquered the whole world. It is also the best and most beautiful mix of improved technology and the classic look with the headlights in the middle. LAND ROVER's global success really began with the Series 2a. From the 1960s onwards he conquered the whole world and was successful. It is also the best and most beautiful mix of improved technology and the classic look with the headlights in the middle. This LAND ROVER 88" SERIES Ila was delivered new to Austria in 1970 as a left-hand drive and received its technical inspection on December 23rd, 1970. The first registration took place on January 21st, 1971 in Innsbruck. Since then it has spent its life in Austria, has been regularly serviced and has regularly passed the technical tests, equivalent to the German TÜV. Its last registration lasted until May 2023 and was then professionally restored by experts. It has received a new fully galvanized frame and the body has been repaired and repainted in Marine Blue. The interior was supplemented with new seats and a

practical Cuby box from the Defender in the middle. The top was replaced, rims and M/T tires in size 235/85 R16 were replaced and everything mechanically checked and overhauled if necessary. The spare tire on the hood and the winch on the bumper make it even more irresistible. A very likeable Land Rover in a beautiful color scheme and a very good restoration quality. Sales on behalf of customers.
