DESCRIPTION

Built from the final Land Rover Defender models produced between 2012 and 2016, each Defender Works V8 is meticulously re-engineered by the specialists at JLR Classic Works in Coventry.Every vehicle is carefully stripped back and rebuilt, featuring a 5.0-litre naturally aspirated V8 petrol engine producing 405PS, paired with a ZF eight-speed automatic transmission. Performance upgrades include bespoke suspension, uprated brakes and distinctive 18-inch Sawtooth alloy wheels, ensuring the vehicle's dynamics match its enhanced powertrain.Key features include: Air conditioning ABS, Electronic Traction Control (ETC) and Dynamic Stability Control (DSC) External roll cage Roof rails LED headlights Auxiliary driving lamps Integrated winch Central locking Electric front windows Heated Recaro front seats Aluminium door handles The interior is extensively retrimmed with premium leather upholstery and enhanced with bespoke Recaro sports seats. A Jaguar Land Rover Classic infotainment system with Bluetooth connectivity and satellite navigation completes the cabin, combining modern convenience with classic Defender character.For customers in continental Europe, every left-hand-drive Defender Works V8 is inspected and road-tested by the specialists at JLR Classic Deutschland in Essen. Following a

comprehensive technical inspection and approval process, each vehicle is issued with German registration documentation and a one-day registration, ready for handover. The result is a unique collector's vehicle, rebuilt by the original manufacturer and representing the ultimate expression of the classic Defender.
