DESCRIPTION

As Jaguar embarks on the boldest transformation in its history to become a modern luxury all-electric brand, this car stands as an unrepeatable celebration of Jaguar's internal-combustion sports car provenance. F-TYPE has captivated sports-car drivers for more than a decade, just as the E-type did five decades before it. The ZP Edition was the ultimate celebration of that lineage, joining an illustrious roster of heritage-inspired collector's editions including the 2015 Project 7 and the 2020 Heritage 60 Edition. Two F-TYPE ZP Edition colourways were offered, recalling the first race-winning 'Project ZP' E-types campaigned shortly after the model's launch in 1961: Oulton Blue Gloss paint with a Mars Red and Ebony duotone leather interior, or Crystal Grey Gloss paint with a Navy Blue and Ebony duotone leather interior. Both featured Porcelain White Gloss hand-painted racing-style roundels on the doors and Porcelain White Gloss grille surrounds. Unique interiors with horizontal seat fluting, along with Gloss Black exterior accents and Gloss Black brake calipers, complemented exclusive F-TYPE ZP Edition branding on the fenders, Gloss Black Diamond-Turned 20-inch forged alloy wheels, tread plates and dashboard. Each car carried a 'One of 150' SV Bespoke commissioning plaque. Available for sale directly from Jaguar Classic is this Oulton Blue roadster, featuring a Mars Red interior. The car has covered fewer than a thousand miles and has had just one owner from new. It will be supplied with 12 months warranty and 12 months

breakdown cover, and will be prepared for sale in our own workshop here at Jaguar Classic.
