DESCRIPTION

A Defender 90 Soft Top from the final years of production. A very attractive Classic Defender from the final 2014 model year, featuring excellent specifications and a classic colour combination. This Defender has been expertly dismantled, refurbished and completely repainted in Dark Grey with steel rims in the same colour and a sand-coloured canvas soft top. The underbody and chassis have also been cleaned and reconditioned. The doors have been replaced with military-style doors, where the upper latch can be removed, as can the sliding windows. Delivered new to sunny and dry Italy, this is an ideal base for refining a corrosion-free example. Features: Air conditioning, military doors, LED headlights, vinyl upholstery (weather-resistant), interior roll bars, 16-inch Wolf steel rims, BF Goodrich All-Terrain tyres. The rear bench seats fitted here must be removed for registration in Germany, as they are not permitted there or in some other European countries. We will overhaul the mechanical systems and, of course, carry out a comprehensive inspection including the replacement of all necessary wear parts and fluids before handover. Thanks to its distinctive design, its world-renowned off-road capability and its unshakeable robustness, it is a true collector's item and enjoys cult status. It is precisely

because it is different that it has such a large fan base. The genuine 'go-anywhere vehicle'.
